TWO THOUSAND AND SEVEN
THE SUMMIT

A Dedication from the Class of 2007

This year at Awards Night the class of 2007 honored Mr. Joe Pedro for his dedication to the school and most of all to the students at Tri-County. Below is the speech given by class president Zakiya Ming to honor Mr. Pedro.

Relatively speaking, Tri-County is a new school. Thirty years, after all, is not such a long span, even though some of you parents in the audience may think so because you were among the early graduates. Thirty years, however, is time enough to develop some traditions, and the teacher we wish honor tonight has been an important part of that process.

Even though he is not an English teacher, he knows the tradition of classical literature; on entering his classroom the ominous words from Dante's Inferno warn, "Abandon hope, all you who enter here." A hopeless atmosphere is certainly not the tone in his room, however. Besides learning the important concepts in his subject area, he also teaches us how to enjoy the lighter moments of school. He is not a history teacher, but his generous use of time and talent has made him the "unofficial historian" of our class, and of many classes before us. He is not an engineer, but his knowledge of the latest technological gadgetry has helped to preserve much of what we most reassure about our high school year: memories of the great and the humorous moments; the solemn and the emotional moments.

He is a teacher whose subject is not only scientific principles, but life principles, especially those of kindness and caring. We thank you, and we will miss you. We hope you can use this small token of our appreciation to continue the tradition you have begun and developed. In the words of the old Kodak commercial, "You ought to be in pictures."

We love you, Mr. Pedro

A Message from the Superintendent

To the Class of 2007:

The mission of Tri-County Regional Vocational Technical High School is to prepare our students to engage in productive employment, pursue higher education, become life long learners, and be creative, responsible American citizens.

We are a vocational technical school and we respect the value of work. In your graduation, we celebrate a job well done. Graduates, it was not that long ago, I addressed you when you were only freshmen. I called you, "Cherubs". I told you we, at Tri-County, had only four short years to take you from the young, immature children you were on that day to the mature, prepared adults you would become. We would get you ready for your adult life and we took that job seriously.

Well, we did it; but we were not alone. Your parents and families helped you in more ways than you appreciated at the time. They worked with us, and together we were your support. That is all we were – your support. What I did not tell you four years ago was that you would do the work and we would simply guide (and maybe, now and then, push, prod and pull!). In the end, **you** did it.

Regardless of where you go now or what you do, I am personally confident you will do well. You have learned to work, and that is the greatest gift Tri-County can give you. I am proud of you and expect good things. Please keep in touch!

Sincerely,
Mrs. Barbara A. Renzoni

A Message from the Principal

To the Class of 2007,

Although we have only spent one year together, I feel as if I have a good idea of who you are, both individually and as a group. What I have witnessed over the year is a group of young people who truly enjoy each other's company and genuinely have fun, but there is so much more.

As I have walked through your shops and classes, I have been pleased to see students who value education and do not mind hard work to accomplish a goal or complete a project. Words cannot describe how impressed I was with the Senior Project presentations I judged. Commitment, planning, organization, and problem solving were evident in every presentation I observed

What is clear to me is how well prepared you are for your next stop in life. As a graduate of Tri-County, you have advantages over graduates from other high schools. You have been exposed to a quality education that is steeped in rigor and has prepared you for college, but there is more. You also possess the skills and talents of a trade with which you can earn a living, but again there is more. I believe the most significant quality that will set you apart from other graduates is that you understand how to work and how to succeed.

The Mission Statement of Tri-County states that "we strive to maximize the potential of each student for successful transition:

to full-time employment
to the pursuit of higher education
to a personal commitment of life-long learning
to full participation as creative, responsible, productive American citizens"

From what I can see, you are ready to make that transition to the next stop on your journey. I believe that a saying, usually applied to parenting, applies even more aptly to your situation. "The only things we can give our children are *roots* and wings." Your work at Tri-County has given you strong *roots*. It is now time to use your *wings* and soar to greatness.

I congratulate you on a job well done.

Sincerely,
Mr. Mark Wood

A Message from the Class Officers

The officers of the Class of 2007 are honored to leave you with our final thoughts.

Our high school experience is best summed up by the following:

We climbed the mountain,
Challenged the best,
Fought the fight,
And won the war.

It has been hard, the road was rough, but we made it through. Our heads are held high, and now it is up to us to take the knowledge attained here, and show the world what a regional, vocational technical high school graduate can do. There have been many special people who have helped us along the way, and we know that we would not have been able to do it without them. As our lives change, come what may, we leave knowing that we will always have the Class of 2007 with us.

Congratulations to all of you.

Sincerely,

Susan White *Treasurer*
Zakiya Ming *President*
Amanda Illsley *Vice President*
Christine Brovelli *Secretary*

A Message from the Class Adviser

To the Members of the Class of 2007:

"The best luck of all is the luck you make for yourself." -General Douglas MacArthur
I wish all of you nothing but the very best of luck. I believe that the members of the Class of 2007 will go out into the world to do great things. As your class adviser I have been lucky enough to watch you mature from unsure, silly freshman to the confident, poised seniors that I see before me. Given the opportunity to work with you in many capacities, I know how much you care for one another, your community and your country. Continue to learn and grown, and make positive contributions to the world around you. When in doubt, remember that it's all about the tossed salad.

Sincerely,

Nicole DeMaria
Adviser to the Class of 2007

I'm glad that I chose to attend Tri-County. It has been an awesome experience. I would like to thank all my teachers for all their help. In my freshman year our Human Services class went on a field trip to the Sysco show and we also got to see the Tweeter Center. Most of all I'll miss my friends Jean, Sheryl and Josh as well as many other friends, and all the crazy things that we went through together, These are the memories that I'll never forget at Tri-County.

I am confident that although each of our memories may seem unique to each of us as individuals, the impact they have on us create common links that forever bind us as a class. More specifically, I will never forget my experiences in my shop concentration, the friends that I made and the knowledge I gained through my teachers. I internalize these memories, think they are my own, and eventually grow to learn that without groups of my peers my memories would never have reached fruition. Remembering is not the destination but the journey.

Junior Year, I hung out with two friends by the names of Derek Dellamano and Anthony Divaio. We skated for a while and just chilled at the school. Around the time that the sports bus showed up, we had a solid group of friends. The good feelings at night about mid-spring with those people will always stick with me. Senior year's weekends with the "Meatball", "D." and Big Will were amazing and will continue to be. Solid nights/get together, Jammin' for the night of the bands, meeting people, solid morning sessions in the spring. Wayne Shep.

Back when Mr. Piccard was still in our shop the good times never seemed to stop. Every day was something new to learn. Whether it was astute military exercises that he got lured out of with cold "soda" or some interesting electronic facts. It was always a productive day, and it was a blast. All of the times we shared, all those days spent huddled around his desk and have him tell us stories and making jokes. Even during the morning he gave us the energy to work through the day, for at the time I actually cared about school.

I will always remember "Chitty! Chitty! Bang! Bang!," How the news team will always assemble and always be stuffed. Also I'll remember not to "call the Poe! Poe!" On the emotion sucking vampire. I'll remember that SkillsUSA will always have Big Buzz in the glass elevator, my albino twin and yelling "Fabonee Slamet Red" to the guys on the field. Furthermore I'll recall the boy,"S-T-U" in math class, Birthday cake non-mummy and "I still can't find."

Lucas Lorditch
After Mr. Picard told us he was leaving, Phil Selesky raised his hand and asked "Did your wife leave you for a jockey?" Two weeks before that, Mr. Picard had said, "If my wife leaves me for a jockey, I'm gunna quit my job and move to the most desolate island in the world." 9/29/05 at 8:05 AM.

I'll always remember the friends I've made and the teachers I've met. I'll never forget the fun I had during exploratory and the new people I befriended. I'll never forget my shop teachers, who have taught me important things that will stick with me and help with future careers. I'll always credit them for the love I developed for Macs and Adobe programs. I'll never forget Wow-man and his "unique" teaching methods. I'll always remember my shop family and all the fun we had. I'll always remember STU, nice ankles, G-man's song, and making paper pom-poms.

Taeos, Monitors, Minge and jokes. The fun times dancing in shop to My Humps and other songs. Starting the paintball team was awesome. we actually placed 3rd. My favorite memory at Tri-County was when my friend was driving me home one day and he was directly behind a bus and he wasn't paying attention and he hit a bus. That's why he has the niekname bus boy. Also he accidently made some girl who now has the nickname bleachers trip into a set of bleachers Also one time in math elass Mr. Hitchborn yells out I x 37 is not 37. Also all the friends I've made at this school. Lastly, all the backyard football games at my house with me and my friends.

Jesse Miller
Senior year had to be the best. Junior year was unforgettable as well. BPA states, BPA NATIONALS! All the fun times in shop like singing to Andrew. Sweet cheeks, "you O-ghey?" Eric's sugar lines in FL! Not to mention James and his Mustang...or Foeus? nah...his STI. Joe Ford and his 'retard mode" and monitor molestation. Eric's sister and BO. These 4 years were definitely the best; I learned new stuff and met people I'll never forget. Now let's see what eollege has to offer.

"Guitar is my main interest, I play every day. Music is pretty much what I'm on this planet for. Without music life would be dull and pretty much meaningless to me."

"Knowing who you are so early in life is a blessing not many have. That you give yourself over completely to your music, it's unbelievable. Your passion and devotion render you unstoppable and it's inspiring to the rest of us. Don't ever let that go and don't ever let them tell you can't."
